ABOUT ME

A passionate web applications developer, loves to design and develop front- end and back-end of web applications, having more than 1500 hrs+ coding experience. A curious, enthusiastic and a quick learner having experience in MERN stack.

EDUCATION

Masai School (Full Time) (Bengaluru- Remote) Web Development (MERN) stack, DSA	Techno India University (Kolkata) BCA (Jul/2016 - Jul/2019)
Techno India University (Kolkata) MCA (Jul/2019 - Jul/2021)	Burnpur Riverside School Class XII (2016),CBSE

TECHNICAL SKILLS

- React.js, Redux, Typescript
- UI,UX Design and Libraries
- HTML/CSS/Javascript
- Express, Node.js, Rest API
- Git, Project Management
- Design Flow, Next.js

PROJECTS/EXPERIENCE

skinstore.com (React Rebuild)  **Nov-2022**
Website-Design, Development and Deployment
skinstore.com was not built on React. I took that as a challenge to make it more efficient and optimised with the help of:

- HTML/CSS
- React.js
- Python
- Bootstrap
- Chakra UI
- Rest Api

Weather App  **June-2022**
A single page light app
A simple and minimal designed by me weather app (SPA), API optimisation oriented. Technologies used are:

- HTML/CSS
- Javascript
- UI Libraries
- API and optimization

Fiverr.com (Replica)  **July-2022**
It was a group of 4 which is led by me made a pixel to pixel clone of fiverr.com. Tried to use primitive technologies to get our basics strong one again. Technologies used are:

- HTML/CSS
- Javascript
- jquery
- Bootstrap
- Restful API
- Git

SOFT SKILLS

- Team Work, Problem
- Solving Mindset,
- Time Management
